www.github.com/waqasjafri512 | Islamabad, Pakistan

PROFESSIONAL SUMMARY

Junior Full Stack Developer with 1+ year of hands-on experience building and shipping real-world web applications. Specialized in React.js, NestJS, and PostgreSQL, with production exposure to real-time systems, AI integrations, and role-based access platforms. AWS Certified Cloud Practitioner. Fast learner who actively participates in code reviews and thrives in sprint-based, collaborative teams.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, Tailwind CSS, Material UI, Responsive Design, Component Architecture

Backend: Node.js, NestJS, Express.js, REST APIs, WebSockets, Socket.io

Databases: PostgreSQL, MongoDB, MySQL, Prisma ORM

Languages: JavaScript (ES6+), TypeScript, SQL

Tools & Cloud: Git, GitHub Actions, AWS (S3, EC2), CI/CD Pipelines, Stripe, Azure OpenAI, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer — Full Stack | [Softoo Technologies](#)

Feb 2026 – Present

- Built 10+ end-to-end features across 3 production applications using React.js, NestJS, and PostgreSQL.
- Developed a reusable React component library (hooks, context API, custom components) that cut repetitive feature scaffolding by ~30% across sprint cycles.
- Built responsive, multi-role dashboards using Tailwind CSS, ensuring consistent UX across mobile, tablet, and desktop.
- Delivered analytics dashboards with dynamic charts and PDF/CSV export features, adopted by internal stakeholders for daily reporting.
- Developed REST APIs handling 5,000+ daily requests with optimized query performance using Prisma ORM.
- Implemented a real-time chat system with Socket.io, achieving sub-1.5s message delivery under normal load.
- Built JWT + RBAC authentication system supporting multi-role access control across production applications.
- Automated CI/CD pipelines with GitHub Actions, reducing manual deployment steps and cutting deployment time by ~40%.
- Actively participate in peer code reviews, incorporating feedback to improve code quality and consistency.

Software Engineer Intern — Full Stack | [Softoo Technologies](#)

Oct 2025 – Jan 2026

- Built 15+ responsive React UI components using Tailwind CSS — forms, data tables, and complex data views.
- Integrated frontend modules with REST APIs and managed global state with Redux, improving data load performance by ~25% on key views.
- Contributed to a 5-engineer agile team, delivering sprint-based features across multiple product cycles.

Backend Developer Intern | [DevelopersHub Corporation](#)

Aug 2024 – Oct 2024

- Built RESTful APIs with Node.js and Express.js for internal tooling.
- Optimized database queries and indexing strategies, reducing average API response time by ~20% on targeted endpoints.

PROJECTS

TNAai — *React.js, NestJS, Azure OpenAI, WebSockets* |

Production

- Built a full-scale AI SaaS platform with multi-tenant UI, real-time streaming chat, and usage analytics dashboards serving 300+ users.
- Implemented WebSocket-driven streaming chat interface, reducing perceived response latency by ~40% compared to polling.

- Built tenant management dashboard with user feedback tracking and analytics reporting.

FAB Pakistan — *React.js, NestJS, PostgreSQL* |

Production

- Delivered frontend modules for a government frequency allocation management system with complex multi-stage workflow pipelines.
- Built role-based UI views for 5+ user roles with conditional rendering and multi-stage approval workflows.

AutoDev AI — *React.js, NestJS, Stripe, WebSockets* |

Personal [GitHub ↗](#)

- Built a SaaS development tool with real-time architecture generation using WebSocket-driven live UI content streaming.
- Designed subscription management UI and integrated Stripe for payment processing and plan lifecycle management.

FinOps Auditor — *Next.js, AWS SDK, Node.js* |

Personal [GitHub ↗](#)

- Built interactive Next.js dashboards to visualize AWS cost and usage data across 100+ cloud resources.
- Implemented batch and real-time data processing pipelines to keep cost dashboards synchronized and current.

EDUCATION

Bachelor of Science in Computer Science | [Minhaj University Lahore](#) | 2020 – 2024 | CGPA: 3.40 / 4.00

Relevant Coursework: Data Structures & Algorithms, Database Systems, Web Engineering, Computer Networks, Software Engineering, Operating Systems, Object-Oriented Programming, Cloud Computing

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CLF-C02) — Udemy
- React: The Complete Guide 2025 (incl. Next.js & Redux) — Udemy
- Master Node.js & Deno.js: REST APIs, GraphQL, Authentication — Udemy
- Docker Foundations Professional Certificate — LinkedIn Learning
